Contents of Volume 8

No. 1

Reviews

Transcriptional organization and regulation of the nosiheptide resistance gene in *Streptomyces actuosus* 1
Y. Li., D.C. Dosch, R.H. Woodman, H.G. Floss and W.R. Strohl (U.S.A.)

Impact of present and future regulations on bioremediation 13
J.S. Bakst (U.S.A.)

Original Papers

Production of pigments by *Monascus purpureus* in solid culture 23
M.R. Johns and D.M. Stuart (Australia)

Production of antifungal metabolites by the ectomycorrhizal fungus *Pisolithus tinctorius* strain SMF 29
H.-W. Suh, D.L. Crawford, R.A. Korus and K. Shetty (U.S.A.)

The novel non-heme vanadium bromoperoxidase from marine algae: phosphate inactivation 37
H.S. Soedjak, R.R. Everett and A. Butler (U.S.A.)

Improved ethanol yields through supplementation with excess assimilable nitrogen 45
E.S.C. O'Connor-Cox, J. Paik and W.M. Ingledew (Canada)

Identification of lipolytic activity in a multitropic population grown in wool-scour effluent 53
M.-C. Brahimi-Horn, C.A. Mickelson, M.L. Guglielmino, A.M. Gaal and L.G. Sparrow (Australia)

Effect of pH on organic acid production by *Clostridium propionicum* in test tube and fermentor culture 59
E.E. Stinson and K.A. Naftulin (U.S.A.)

A novel antifungal from an Actinomadurae with preferential activity against the mycelial phase of *Candida albicans* 65
V. Gullo, I. Gunnarsson, A. Horan, D. Loebenberg, J. Marquez, M. Patel and J. Schwartz (U.S.A.)

Announcements 69

No. 2

Review

Thermostable enzymes for industrial applications 71
B.L. Zamost, H.K. Nielsen and R.L. Starnes (U.S.A.)

Original Papers

Activity of an insoluble antimicrobial quaternary amine complex in plastics 83
D.L. Price, A.D. Sawant and D.G. Ahearn (U.S.A.)

Disturbance, starvation, and overfeeding stresses detected by microbial lipid biomarkers in high-solids high-yield methanogenic reactors 91
D.B. Hedrick, B. Richards, W. Jewell, J.B. Guckert and D.C. White (U.S.A.)

Use of continuous-flow UV-induced mutation technique to enhance chlorinated organic biodegradation 99
G. Kai, A.S. Weber and W.C. Ying (U.S.A.)

Streptomycin-resistant mutant production in a continuous-flow UV mutation device 107
G. Kai and A.S. Weber (U.S.A.)

Mutants of a lovastatin-hyperproducing *Aspergillus terreus* deficient in the production of sulochrin 113
V.A. Vinci, T.D. Hoerner, A.D. Coffman, T.G. Schimmel, R.L. Dabora, A.C. Kirpekar, C.L. Ruby and R.W. Stieber (U.S.A.)

The use of particle concentration fluorescence immunoassay technology for the analysis of rDNA products 121
B.J. Del Tito, Jr. (U.S.A.)
L-Lysine production at 65 °C by auxotrophic-regulatory mutants of *Bacillus stearothermophilus* 127
F. Crociani, A. Selli, G. Crisetig, D. Di Giola and D. Matteuzzi (Italy)
Kinetic studies on surfactant production by *Pseudomonas aeruginosa* 44T1 133
M.A. Manresa, J. Bastida, M.E. Mercadé, M. Robert, C. de Andrés, M.J. Espuny and J. Guinea (Spain)

Short Communication
Transformation of protoplasts of *Cellulomonas flavigena* 137
B. Pulido-Vega, T. Ponce Noyola, A. Farrés and J. Alvarez de la Cuadra (Mexico)

No. 3

Review
Bioventing soils contaminated with petroleum hydrocarbons 141
R.E. Hoeppel, R.E. Hinchee and M.F. Arthur (U.S.A.)

Original Papers
Fermentation study for the production of hepatitis B virus pre-S2 antigen by the methylotrophic yeast *Hansenula polymorpha* 147
M.R. de Roubin, L. Bastien, S.-H. Shen and D. Groleau (Canada)
Bioconversion of the sodium salt of Simvastatin (MK-733) to 6-desmethyl-6-α-hydroxy-methyl Simvastatin 157
C. Marcin, R. White, C. Hirsch, F. Ferris, R. Sykes, D. Houck, R. Greasham and M. Chartrain (U.S.A.)
Metabolic roles of peptone and yeast extract for the culture of a recombinant strain of *Escherichia coli* 165
N. Nancib, C. Branlant and J. Boudrant (France)
Effect of cultural conditions on production of eicosapentaenoic acid by *Pythium irregulare* 171
E.E. Stinson, R. Kwoczak and M.J. Kurantz (U.S.A.)
Production of arachidonic acid by *Mortierella alpina* ATCC 32222 179
P.K. Bajpai, P. Bajpai and O.P. Ward (Canada)
Sch 42029, a naturally produced dopamine receptor ligand: taxonomy, fermentation, isolation and structure 187
V.R. Hegde, M.G. Patel, A.C. Horan, J.L. Schwartz, R. Hart, M.S. Puar, V.P. Gullo and S. Iyengar (U.S.A.)
The assimilation of organic hazardous wastes by municipal solid waste landfills 193
D.R. Reinhart and F.G. Pohland (U.S.A.)
Cadmium sorption by bacteria and freshwater sediment 201
B.E. Burke, K. Wing Tsang and R.M. Pfister (U.S.A.)
Determination of chemical biodegradation by direct and indirect methods 209
D.D. Vaishnav and E.T. Korthals (U.S.A.)

No. 4

Review
Biofilms: an ESEM evaluation of artifacts introduced during SEM preparation 213
B. Little, P. Wagner, R. Ray, R. Pope and R. Scheetz (U.S.A.)

Original Papers
Oligotrophic bacteria in ultra-pure water systems: media selection and process component evaluations 223
R.A. Governal, M.T. Yahya, C.P. Gerba and F. Shadman (U.S.A.)

Studies on the galactomannan-degrading enzymes produced by *Sporotrichum cellulophilum* **229**
A. Araujo and O.P. Ward (Canada)
Emulsification of hydrocarbons by subsurface bacteria **237**
D.S. Francy, J.M. Thomas, R.L. Raymond and C.H. Ward (U.S.A.)
The effect of pretreatment on the invertase activity of gel-entrapped yeast biomass **247**
L. Pira, C. Pinto and C. Rolz (Guatemala)
Expression of streptomycete cholesterol oxidase in *Escherichia coli* **253**
D.K.Y. Solaiman and G.A. Somkuti (U.S.A.)
Δ′-Dehydrogenation of steroids by *Arthrobacter simplex* immobilized in calcium polygalacturonate beads **259**
M.C. Montes and I. Magaña P. (Mexico)
The biosynthetic origin of the pyridone ring of efrotomycin **265**
G. Darland, B. Arison and L. Kaplan (U.S.A.)

Short Communications
Resistance of bacteria from cooling waters to bactericides **273**
V.S. Brözel and T.E. Cloete (Republic of South Africa)
Colonization by *Cladosporium* spp. of painted metal surfaces associated with heating and air conditioning systems **277**
D.G. Ahearn, R.B. Simmons, K.F. Switzer, L. Ajello and D.L. Pierson (U.S.A.)
Attachment of *Salmonella typhimurium* and *Listeria monocytogenes* to glass as affected by surface thickness, cell density and bacterial motility **281**
J.S. Dickson and E.K. Daniels (U.S.A.)

Instructions for Authors **285**

Author Index **287**

Subject Index **291**

Contents of Volume 8 **293**
